

BSI CERTIFICATE IN ENVIRONMENTAL MANAGEMENT SYSTEMS

Your step-by-step guide to implementing and maintaining an Environmental Management System

DISTANCE LEARNING:

The course is for those involved at either strategic or operational level aspiring both to achieve professional recognition, and also to provide direct benefit to their employer through the implementation of an effective Environmental Management System.

The course is a CD-based distance learning programme supported by provision of the relevant standards and the BSI publication 'Managing the Environment the 14001 way'.

Based on the framework provided by the ISO 14000 series of standards and BS 8555 STEMS, the course provides step-by-step guidance and knowledge to help implement and improve an effective EMS.

Each phase of the course provides an activity for you to complete. Upon completion, the activity is reviewed by a BSI Tutor and feedback provided directly to you. After satisfactory completion of all the phases you will be awarded the BSI Certificate in Environmental Management Systems.

COURSE BENEFITS INCLUDE:

- Enhancing your career development
- Building upon your professional development
- Achieving a recognised professional qualification
- Improving your organisation's EMS and confidence in relation to their impact upon the environment
- Applying the knowledge you have gained to achieve financial benefits for your organisation

THE COURSE PROGRAMME

WILL ENABLE YOU TO:

- Complete all the actions necessary to be confident about achieving certification for your EMS
- Enhance your knowledge and application of Environmental Management Systems
- Structure your EMS effectively
- Manage the continuous improvement cycle
- Fully understand the EMS Standard requirements – the phases align directly with the stages of BS 8555

PACK CONTENTS INCLUDE:

- Interactive course CDs
- A copy of the relevant Standard
- A copy of 'Managing the Environment the 14001 way'
- Course guidance notes and contact sheet
